Objective:

Aspiring Computer Science engineer with strong foundational knowledge in software development, machine learning, and full-stack web technologies. Skilled in React.js, Node.js, and database management with hands-on experience through academic projects and industry training. Experienced in developing and building web-based management systems. Eager to contribute technical expertise, problem-solving abilities, and collaborative skills to a growth-oriented organization.

Technical Skills:

- Programming Languages: C, C++, Java, Python
- Web development: HTML5, CSS3, JavaScript, React.js, Node.js, Django
- Database: MySQL, DBMS Concepts
- Tools & Platforms: Git, GitHub, VS Code
- Core Concepts: OOP, Data Structures, Software Engineering Fundamentals

Projects Done:

SAMMS: Built a full-stack attendance and marks management system using React.js and Django with separate dashboards for faculty and students.

Task Manager Application: Developed a secure full-stack task management application with authentication, CRUD operations, and responsive UI.

Student Helper Platform: Created a student resource-sharing platform with dynamic categories and admin management features.

Industrial Training:

Robotics & IoT Developer Intern

Cedura Testsol | 6 Months

- Developed IoT-based prototypes using sensors and microcontrollers.
- Assisted in embedded systems integration and real-time data communication.
- Collaborated on hardware-software integration and testing tasks.
- Contributed to Social Media Marketing activities when required.
- Awarded a Letter of Recommendation (LOR) for performance and contribution.

Education:

- **B. Tech in Computer Science and Engineering (CSE)**
SRKR Engineering College, Bhimavaram | 2025 – Present | CGPA: 8.2
- **Diploma in Computer Engineering (CME)**
Andhra Polytechnic, Kakinada | 2022 – 2025 | Percentage: 88%
